INSTRUCTIONS FOR THE VOCABULARY OF MEDICAL STORES (INDIA).

---

1 **Vocabulary—No authority for demand.**—This vocabulary is no authority for the demand or issue of stores.

2. **Stores included.**—All stores, whether obtained in India or imported and which are current equipment of the Army in India are included in this edition. In the case of obsolescent stores, reference should be made to previous editions and supplies will be made if they are available in stock.

3 **Arrangement.**—Stores of the same general character or used for the same general purpose are arranged together in the same section in alphabetical order. The components of main items are shown in appendices attached to the various sections, and bear component numbers as well as index numbers.

4. **Detail**—Detail of a useful character has been inserted to facilitate identification and verification of the use of stores, but information which is to be found in Equipment or other Regulations is not included. When the service for which the articles are required is given, this does not necessarily preclude their use for other purposes for which they may be suitable.

5. The vocabulary specifies the accounting unit which should be adhered to in the demands of the units etc.

6. All dry articles and of fluid drugs, Acid Hydrochloric, Acid Nitric, Acid Sulphu[illegible] Balsam will b[illegible] s will be issued [illegible] original contair[illegible]

(c) In an indent, articles from different sections should be separated and not mixed together Under each section articles should be arranged in the order in which they appear in the P. V. M S

9 **When preparing vouchers** for articles to be returned to Medical Store Depots the rules under para. 8 above should be followed.

Civil institutions are not allowed to return stores to the Medical Store Depots without the prior concurrence of the D. A. D. G. (Medical Stores).

10. Civil institutions should use only civil indent forms which can be obtained from the D. A. D. G (Medical Stores) of the Medical Store Depot in the circle of supply in which an institution is situated.
